

CONTROL VALVES & ACCESSORIES

ABOUT US

Potentia with over 25 years of rich experience for projects execution in the Oil & Gas, Fertilizers, Power & Energy sectors have 100% reliable & trusted products in compliance with world wide international standards

OUR OFFERINGS

Control Valve is a critical part of control loop that manipulates a flowing fluid to compensate for load disturbance and keeps the regulated process variable as close as possible. We not only offer brand new and internationally acknowledge high quality control valves but also provides you with the necessary valves accessories installed to improve the efficiency of your existing system

Accessories are the broad category of instruments that are directly connected to a control valve assembly in order to ensure speed of response, accuracy, stability and reliability of process. Our range of control valve accessories include

- Actuators
- Positioners
- I/P Transducers
- Volume Boosters
- Limit Switches
- Position Transmitter

	GLOBE VALVES
