

SOLAR

Integrated Solar Energy System
Innovating for tomorrow

ABOUT US

Potentia has over 25 years of rich experience for execution of projects in Oil & Gas, Fertilizers, Power & Energy sectors of Pakistan. We have reliable, high-quality, & cost-effective Explosion Proof as well as Non-Explosion Proof Solar Energy Systems. All of the accessories can be supplied from USA, Europe, and China origin (as per customers' preference).

HIGH EFFICIENCY:

Our offered solution comply with all the relevant standards keeping in mind the efficiency of designed system is higher than other brands.

HAZARDOUS AREAS:

We provide our clients with certified explosion proof Solar System which is suitable for any hazardous area where there is a chance of explosive environment.

ECONOMICAL:

When compared with others, our offers stay on the lower sides making sure that our clients get an economical solution according to their requirements.

OUR OFFERINGS

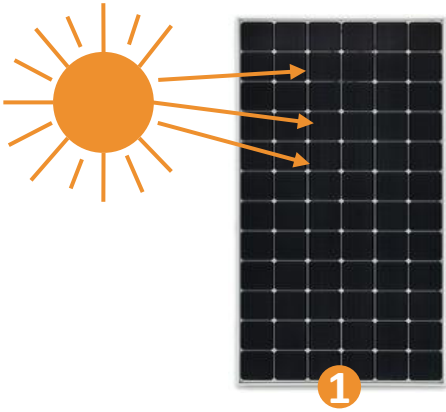

We can design and supply complete range of products and solutions required for a fully functional solar energy system both for Safe Areas as well as Hazardous Areas. Our offerings consist of following:

- ✓ Solar System Design & Complete Calculations
- ✓ Ex & Non-Ex Solar Panels
- ✓ Charge Controllers / Inverters
- ✓ Batteries
- ✓ Accessories

All the equipment is available as per the client's demands.

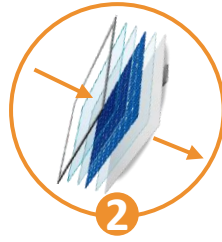

YOUR ONE STOP SOLUTION

Sunlight:

When sunlight hits a solar panel, photons (particles of energy) are converted into electrons.

Solar Cell:

As electrons pass through the cells of a solar panel, they're converted into direct current electricity.

Inverter:

That electricity is sent to an inverter which converts it into alternating current (AC) power.

Equipment:

That AC power runs through your site ready to power appliances, charge devices, and more.
